

Dear colleagues, exhibitors and sponsors,

SNETP is an international association (AISBL) under the Belgian law, composed of around 130 members from 25 countries, gathering nuclear power plant operators, research centres, nuclear industry and technical support organisations. The association has been supporting the creation and the implementation of R&D programmes since 2007.

The [SNETP Forum 2026](#), will be held in Madrid, Spain, 25-27 March 2026, and will explore recent technological progress in advanced nuclear technologies including SMRs and AMRs, safety, non-electric applications, long-term operation (LTO), and improved NPP performance.

The Forum will identify key topics of interest for the European community, helping to shape future R&D&I priorities and projects, as well as promoting the harmonisation of best practices across the EU and beyond.

We are pleased to invite you to join us as a distinguished sponsor, offering you the opportunity to showcase your expertise and technological capabilities to the international nuclear community, with more than 200 experts expected from the EU, the USA, the UK, Japan, and beyond.

KEY CONTACTS

If you are interested, have any questions or need further information please contact the SNETP secretariat (administration@snetp.eu).

FORUM VENUE

The SNETP Forum 2026 will be organised at [Espacio Pablo VI](#), Madrid, Spain.
